

## **AGORA Mini-Course**

**Speaker:** Martin Dufwenberg (University of Arizona)

**Topic:** Behavioral Game Theory

Date/Time: 10-12 December, 2024 @ 10:30am-12pm & 1:00pm-2:30pm

**Location:** Tyree Energy Technology LG05, UNSW

Martin Dufwenberg is the Eller Professor of Economics at the University of Arizona, as well as the Director of the Institute of Behavioral Economics. Martin has over 70 academic publications, using a combination of game theory and experiments to explore many topics in behavioral economics, most recently psychological game theory. Additionally, Martin has co-authored multiple NSF grants and held editorial positions at several top journals, including current appointments at both of the Economic Science Association journals (Experimental Economics and JESA).

Martin's research covers numerous topics across behavioral economics and psychological game theory, with a few main themes being reciprocity, agreements, information disclosure, and social norms. Since graduating with his doctorate at Uppsala, Martin has published insightful work at the frontier of psychological game theory, spanning the past 30 years.

\*This is a free mini-course hosted by the AGORA Centre for Market Design Local Organizers: Jacob K. Goeree, Jason Tayawa and Brett Williams

In addition to the three day mini-course taught by Martin Dufwenberg, AGORA is hosting the:

## **AGORA Workshop on Behavioral Economics**

## December 13 9:30am-5:10pm
